

Hot Flash

Complete instructions for making Hot Flash, made by Alex Anderson and quilted by Paula Reid, are given in the August 2012 issue of *The Quilt Life*. Print the patch patterns and trace them on template material to make templates. Instead, you might want to cut them out and glue to cardstock and then cut out each template.

The foundation given here can be used to paper piece the Fan blade section, if you prefer. Print 25 foundations to make this quilt.

Flip here to complete template.
